THE DEVELOPMENT OF GERFLOR® GROUP

OUR GOAL IS TO OFFER MORE AND MORE
GLOBAL SOLUTIONS.

Gerflor® is recognized as a specialist and one of the world leader in resilient flooring solutions. The group creates, manufactures and markets innovative, design-led and eco-responsible solutions for flooring and complementary interior finishes. Our ranges have become very famous brands in the PVC flooring industry, especially homogeneous products Mipolam®, Taralay® ranges and sport products Taraflex®.

Our brand is our promise and it grows through the positive experiences provided to stakeholders, particularly our customers and our employees around the world. We reaffirm that promise daily to anticipate and meet the specific needs of users, specifiers, installers and distributors wherever they may be.

GERFLOR® GROUP

ALL OVER THE WORLD

Worldwide presence and proximity to our customers through:

26 subsidiaries and a broad network of partner distributors
12 manufacturing plants
30 Logistic hubs

● sales offices
● manufacturing plants and logistic hubs

100 **MILLION**
people daily live on a Gerflor Residential flooring.

600 **MILLION**
people daily travel on a Gerflor Transport flooring

 **500** **MILLION**
patients healed everyday on Gerflor floors for Healthcare.

10 **WORLD CLASS**
competition games played everyday on a Taraflex® Sports floor.

 **200,000** **SQM**
Gerflor floors and wall protections installed everyday.

6 **MILLION**
children daily enjoy the benefits Taraflex® Sports flooring.

ECO-RESPONSIBLE SOLUTIONS

LESS SPEAKING FOR MORE ACTION

INDOOR
AIR QUALITY

COMPOSITION

- **100% REACH** compliant
- **FREE** of formaldehyde
- **FREE** of heavy metals
- **FREE** of solvent

INSTALLATION

- **Innovative adhesive free** installation systems

RECYCLED CONTENT

- **100% REACH** compliant recycled content

RECYCLING

- **100% recyclable** product

LCA

LIFE CYCLE ANALYSIS

- **Eco-designed** according to a product specific Life Cycle Analysis
- **Product specific EPD** (Environmental Products Declaration) available
- **Manufactured in an ISO 14001** and **ISO 50001** certified site
- **Contribution to many Green Building Schemes** (LEED, HQE, BREEAM...)
- **Exclusive surface treatments** to reduce drastically the use of chemical product and water and ensure the lowest environmental impact

INDOOR AIR QUALITY

- **TVOC emissions 10 times better than norms requirements** (TVOC < 100 µg/m³ after 28 days)
- **TVOC < 10ug/m³ after 28 days** for all products treated Evercare™ / ProtecSol®2
- **Floorscore certified**
- **M1 certified**
- **Comply with AgBB protocol**
- **No formaldehyde emission**

WELLNESS

- **Health:** Antibacterial activity (inhibits growth > 99%)
- **Safety:** Anti slip performance
- **Comfort:** Walking comfort and impact noise reduction

TVOC

All materials emit volatile substances known as VOCs (Volatile Organic Compounds). Our flooring products are routinely assessed for compliance with ISO 16000 requirements after 3 and 28 days. The result is that Gerflor products are one of the lowest emissions on the market.

INSTALLATION

Gerflor has pioneered unique, patented loose-lay systems that minimise or completely eliminate the use of adhesive.

REACH

REACH is the regulation for Registration, Evaluation and Authorisation of Chemicals in the European Union. REACH is the only official regulation in European Union (and the most demanding one) to define if a chemical material is safe or not. It is not only European but also taken into account by the most famous International Building Certifications, like the new version of LEED (LEEDv4), to assess the safety of a material.

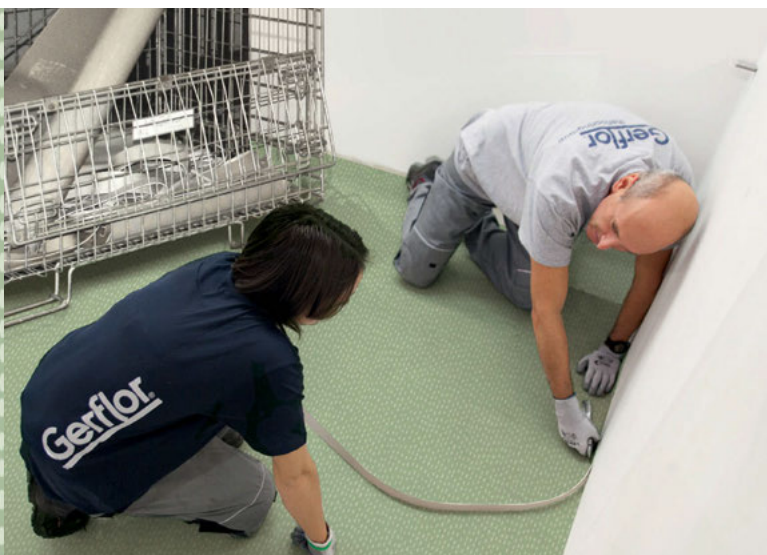

FLOORSCORE

FloorScore is a certification program developed by the Resilient Floor Covering Institute and Scientific Certification Systems. The purpose of this certification is to ensure that flooring products comply with indoor air quality emission standards. In order to get the FloorScore approval it must undergo stringent testing of products and on-site audit to prove it will promote healthy air quality once installed.

CONTRIBUTION TO GREEN BUILDING CERTIFICATION

**100%
RECYCLABLE**

LEED (Leadership in Energy and Environmental Design) certification

issued by the USGBC (US Green Building Council), confirms that a building or a community has been designed and constructed using strategies to improve performance by saving energy, treating water, reducing CO₂ emissions, and improving indoor air quality. Our floorings contribute to building certifications (3 levels of certification: silver, gold, platinum) because:

- Low VOC emission (Floorscore® compliant)
- High recycled content
- Product specific EPD (Environment Product Declaration)

WE FOCUS ON STUDENTS WELLBEING

Colorful

Kids' inspiration is from different colors, Gerflor® is always committed to providing kids a colorful world.

- Full range designs with hundreds of colors
- Unique designs like Neopolis, Poesy, and Metallica under Premium range can bring a 3D effect.
- Creative Designs like Kubes, Rice, Corner, and Stars under Taralay® Impression can inspire kids' imaginations.
- Wood designs will make library full of book aroma.

Environmental-friendly

For eco-responsible solutions, Gerflor® always aim to "less speaking for more action".

- Floorscore certified.
- An excellent indoor air quality TVOC (indoor air quality after 28 days: $<10\mu\text{g}/\text{m}^3$)

Safety

The safety is the primary concern of schools and parents. Gerflor's sport floor brings immediate protection on impact to all users when falling, diving or sliding on the floor. We protect the student when they enjoy the joy of sports activities.

Hygienic

Provide children with a health environment is Gerflor's objective.

- Antibacterial by Sanosol technique improved hygienic and infection control.
- The surface treatment facilitates ease of maintenance.

Quiet

If footfall sound should be reduced, Gerflor® flooring contribute in a perfect way:

- The Quiet reduction till 19dB
- The gerflor's COMFORT range provides a comfortable education space.

A SOLUTION

FOR EVERY SPACE

Gerflor® floorings for kindergartens, schools and universities:

90 % of childrens daily life are spent indoors: at school, the library, at kindergarten or in gymnasiums. Every age group has its own individual requirements regarding floor coverings. At the same time, school end users and operators have to face their own constraints. Therefore we recommend Gerflor flooring solutions as they have been specifically designed to meet these requirements. Our in-house technology brings bacteriostatic properties suitable for all areas where children play on the ground. Gerflor floorings are also safe and slip resistant. They reduce the risk of injuries everywhere, even under high traffic. Besides, our comfort ranges provide a pleasant educational space with increase noise reduction to improve study conditions. Finally our incredibly wide product range offers an infinite number of color combinations, contrasts, and designs to help creating stimulating or relaxing environment, depending on your need.

2. Consists from 98% organic or mineral-based
3. Product certified by many eco-labels
4. Stone design, 50 colors for choose

EASY MAINTENANCE

PROVEN EFFICIENCY

EVERCARE™ technology, an exclusive patented Technology by Gerflor:
ease of maintenance, no need for wax and polish for life, water and detergent savings,
plus **3 additional benefits**:

1 STAIN SHIELD, BLOCKS EVEN THE TOUGHEST STAINS

Gerflor floorcovering with
EVERCARE™

The **EVERCARE™** water-repellent effect prevents staining products from penetrating the materials (alcohol-based Eosin and Betadine, hydro-alcoholic gels, etc.), remaining on the surface.

Other floorcovering

All other product on the market let staining product penetrate the floor covering.

Marker / Eosin / Betadine

WHY DO WE CHOOSE GERFLOR SPORTS FLOORING?

1 FOR PROTECTION

The floor that brings immediate protection on impact to all users when falling, diving or sliding on the floor

IPI: IMPACT PROTECTION INDEX.
THE HIGHER THE IPI (Impact Protection Index), THE HIGHER THE PROTECTION
(less pain, fewer bones injuries...)

2 FOR ITS SUSTAINABILITY COMMITMENT

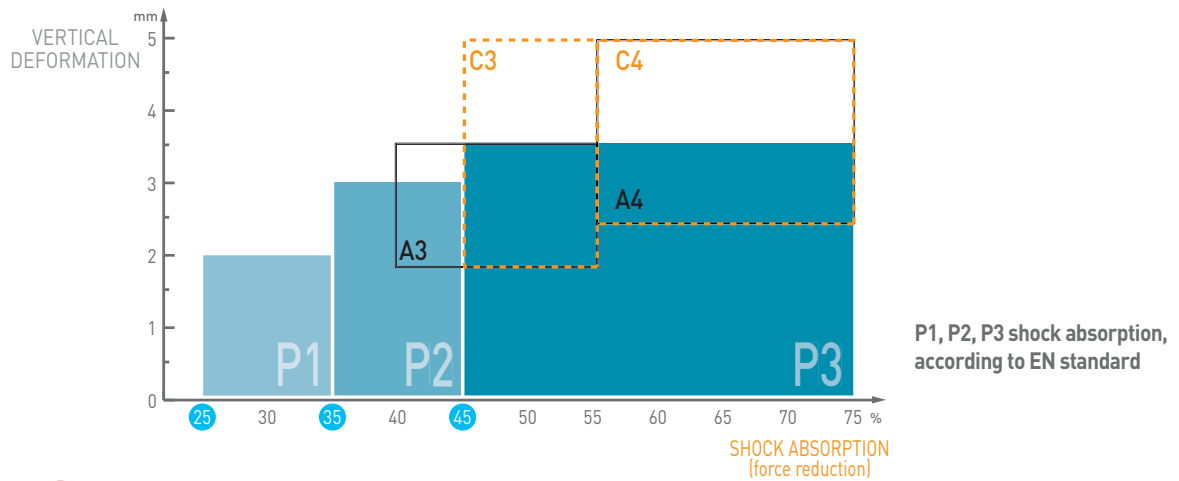

3 FOR ITS LEGITIMACY

4

For Safety

EN 14904 Standard: minimum performance requirements to be met by indoor sports floors

5

For Durability

Gerflor sports flooring technologies ensure long-lasting HIGH PERFORMANCE

The court of Beijing America School was installed in 2006, the picture was filmed in 2019.
